ERP Implementation

Product: Oracle Applications

Client: Manufacturing/Control/Defense Company

A global leader in control technology, this client provides products, systems and services that increase comfort, protect the environment, conserve energy and enhance productivity and safety in homes & buildings, industry and aviation & space.

The Project:

This project involved the development of purge functions for both the Project Accounting and Work In Progress modules of Oracle Applications. WiseSoft provided Project Management and Technical Consulting staff for the entire project.

A beta version of the purge function for the Project Accounting Module was provided by Oracle and tested by the WiseSoft project team. The project team tested all necessary functionality, documented purge program errors, and provided a bug list to Oracle.

The project team was also responsible for redeveloping the purge function for the Work In Progress module. The project team tested for required functionality, documented errors, provided necessary software fixes and tested functionality again.

The Results:

Our Philosophy

Quality, Integrity and Commitment (QIC) is the triad that forms the core of our business philosophy. QIC is a sound business ethic that we firmly believe in and carry with us to all our engagements.

Reduction of operational costs by reducing resource requirements and speeding the processing of critical data.

At WiseSoft®, Inc. we focus on making "*Your Need*, Our Concern." ™
